About the Downers Grove Hospitality Alliance

The Downers Grove Hospitality Alliance was created in July of 2008 as a common way to promote Downers Grove restaurants and hotels to the community and Chicagoland area. The Alliance focuses on gathering thoughts and opinions, identifying and reviewing critical issues, developing strategic plans to address issues, providing networking and marketing opportunities, and most importantly representing Downers Grove restaurants on a local and regional level as one voice. Several events occur throughout the year hosted by the Hospitality Alliance to enhance exposure for Downers Grove's dining options.
